

Global production of EU Critical Raw Materials: CRM shares

5-year average 2019–2023

Map 1/3
 31★ CRMs included account for 1,619 Mt (100%) of global EU CRM production

Map 2/3
 25 CRMs included account for 41 Mt (2.5%) of global EU CRM production

Map 3/3
 14 CRMs included account for 0.8 Mt (0.05%) of global EU CRM production

Drawn to scale

Proportions within each circle to scale; circle sizes standardised

Order of decreasing production

★ Phosphorus data not available
 Hafnium data not available; zirconium in zircon was used as a proxy
 LREE, HREE and scandium combined as REE oxide (REO)

Data: World Mining Data, USGS
